# Who are you?

- Experience? Day job?
  - Unix prompt: huh prompt?
  - make: make what, a pie everyday?
  - unbound: Sorry, I'm married.
  - zones and domains: stay out of my personal space
- Expectations?
  - Is there anything we should pay special attention to?

# About the workshop

- Hands-on:
  - Interleave lectures and Do It Yourself
- Start basic DNS and basic DNS services
  - Resolver → Authoritative → Registering zones → Resilience → DNSSEC Validation → Signing → etc.
- Bit of improvisation on our side, and on yours

# Lab environment

- Teams of one, two or three persons
- Each team has two cloud provided Linux (Ubuntu 21.04) machines  
( *access with ssh or via web based Shell in a Box terminal*  
*, Links to web terminal on <https://dnslab.uk/teams.shtml> )*
- [dnslab.uk](https://dnslab.uk) domain for hands-on practice
